# NC Medicaid - Type of Bill Update

This is an excerpt from DMA November Medicaid Bulletin (Page 21):

"**Effective Nov. 1, 2015**, providers should no longer submit original claims ***for home health services using Bill Type 33X***. Providers should use Bill Type 32X or 34X instead. Bill Type 33X will be discontinued per the Centers for Medicare & Medicaid Services (CMS) and the National Uniform Billing Committee."

No change is needed in your setup. As long as Payclass = C under your Medicaid payer(s), the correct TOB will appear on your claim(s). You can verify this by pulling up your Medicaid payer(s) under **Codes**>**Program Related Codes**>**Payer Codes**.
