Complimentary Requirements Check from Barnestorm

1. If you aren't sure if your computer meets the requirements, we'd be happy to check it for you.
2. From the computer you'd like us to check, launch a browser and navigate to <http://chat.barnestorm.biz>.
3. Fill in your name and agency.
4. For the category, please select "Other Question".
5. In "Your Question or Request," please type: "Check my computer to see if it meets Barnestorm install requirements."
6. Click the **Start a chat** button.
7. You may get a pop-up; if you do, click the **Run** button to run the chat function. You may have to do this twice.
8. Our technicians will connect to your computer and check its specifications. They'll let you know if it meets our requirements.
9. Call us at 877-999-1171 if you have any questions; we're happy to help!

Additional Notes

- All SQL versions require administrative rights on the computer during the install.
- **All Client and Server operating systems can be 32-bit or 64 bit. As of April 8, 2014, Barnestorm no longer supports Windows XP. Effective January 14, 2020 Barnestorm will no longer support Windows 7.
- Ink and Signatures can be input into the system using any mouse pen, wireless digital pen or standard mouse. Touchscreens are required for monitor signing.
- Outgoing ports required for Barnestorm are: 21,22,80,443,450,2022,8090. The software can be configured to be accessible from outside the network if desired. Mapping and management of network drives is not the responsibility of Barnestorm. See our support policy [here](#).

IMPORTANT NOTE: As of April 8, 2014, Barnestorm no longer supports Windows XP. Effective January 14, 2020 Barnestorm will no longer support Windows 7.
