

View NPI Numbers

From the Barnestorm main menu, click on **Codes > Other Basic Codes > Doctors**.

Click on the **Print Codes** button. This will generate a list of all doctors and facilities entered under **Other Basic Codes > Doctors**. You will see a column labeled **NPI**. If that row is blank for a doctor or facility, then an NPI has not been entered. You may open that doctor or facility, enter an NPI, and click the **Save** button.
