

Create Discharge Order

After the discharge information has been entered in the referral screen you can create a discharge order for the doctor.

- o Pull up the patient from Select Patient screen
- o Click on Orders
- o Change the date as needed
- o Click on the drop down list Type
- o Click on the Discharge
- o If Add Admin Thru D/C summary is checked then all information that shows up on the 60 Day Summary will appear on the Discharge Order
- o Click on the **Create D/C** bullet
- o When you have finished the order click on **Save** and create the Order

The following information will show up:

- O Phrase: Patient was discharged on (Date from referral screen)
- o Phrase: D/C Reason: (Description of discharge from referral screen)
- O Phrase: Last Home Visit: (you type in the last visit date)
- o A list of disciplines that were involved and how many visits were made; along with the time frame they were involved
- o Phrase: Reason for Admission: Patient was admitted on (Date from referral screen) (type in a description of why patient was admitted)
- o A list of Diagnoses at Admission
- o Phrase: Summary of Care (to date): (you type up a summary)
- O Phrase: Follow-up Plans: (you type in a summary)
- o A list of Current Diagnoses
- o A list of Current Medications
