

## Create and Print Hospice NOE 81A / 81B

---

### Overview

Barnestorm can create electronic hospice Notice of Election claims including:

- **81A** — Notice of Election (NOE)
- **81B** — Notice of Termination/Revocation (NOTR)

Hospice NOE claims can be transmitted electronically. When the file is created, the claim file name will use either:

- **\_A.837** for 81A claims
- **\_B.837** for 81B claims

**Important:** If you are approaching the Medicare timely filing limit for the NOE or NOTR, monitor the electronic submission carefully. Medicare will return a 999 and 277CA indicating whether the file was accepted or rejected.

### Requirements

- The patient must be active or admitted within the past 365 days.
- The patient's primary payer must be configured as a Hospice payer with per diem billing.
- 81B claims are only available for discharged patients.

### Create the Electronic 81A or 81B

Barnestorm Office > Billing > Other > Print 81A / 81B

1. Select either **81A** or **81B**.
2. Search for the patient by name or enter the six-digit chart number.

## How to Print NOE 81A / 81B

3. Select the patient and appropriate hospice payer.
4. Review the claim history panel on the right side of the screen.
  - If previous claims exist, they will display in the list.
  - If no claims exist, the screen will display: **No claims created yet.**
5. Click **Create Electronic Claim.**
6. A confirmation message will display showing the file name and save location.
7. Click **OK.**

### Print the Claim

1. Click **Print Electronic Claim.**
2. Select **Print All Claims in This Batch.**

### Transmit the File

Send the electronic NOE file using the same process normally used to transmit Medicare billing claim files.
