

ICD Codes That Score in 2013 but Not 2014

This is a great report to run to find out why some episodes are scored differently in 2014 compared to 2013.

- Reports > Billing > 13.20 HHRG/HIPPS Table
- Click the Print 2013 Episodes With ICD Codes Not Valid in 2014
- This will give you a heads up on ICD codes that paid in 2013 but does not in 2014. It shows you which patient, OASIS and ICD was used in 2013; what the HIPPS code was last year compared to what it would be this year, it may or may not change.
