

Creating A Pediatric Assessment

- a. Pull up the patient from the Select Patient screen.
- b. Click the Visits/Assessments tab.
- c. Click New. A popup will appear:

- d. Click **Yes** for a Pediatric assessment. Clicking **Yes**, will auto-check the Pediatric Assessment box on the next screen that appears:

Clicking **Yes**, will also change the Heading of the assessment to reflect a Pediatric Assessment:

Note: If you click **No**, the Pediatric Assessment box will not be checked, and the assessment will not be marked as Pediatric.

Creating A Pediatric Assessment

- e. Proceed with documenting the Required items as appropriate and the Optional items as needed.
- f. Save the assessment.

Additional Note: If the popup (in Step C) is inappropriate for your patient, have Office staff verify their Date of Birth in the Referral.
