- a. Pull up the patient from the Select Patient screen.
- b. Click the Visits/Assessments tab.
- c. Click New. A popup will appear:

Barnestorm.Note	
Patient is under 18, would you like to n	nake this a pediatric assessment?
	Yes No

d. Click **Yes** for a Pediatric assessment. Clicking **Yes**, will auto-check the Pediatric Assessment box on the next screen that appears:

Pediatric Assessment Type Assessment

Clicking **Yes**, will also change the Heading of the assessment to reflect a Pediatric Assessment:

	LIVING TO THE FULLEST Skilled Nursing Pediatric Visit Note	
Fri Mar 07, 2014	Patient: RABBIT, ROGER E	Chart#: 200273
01:18 PM - **:** **	Employee: ON TIME, RN	Empl#: 0090

Note: If you click **No**, the Pediatric Assessment box will not be checked, and the assessment will not be marked as Pediatric.

e. Proceed with documenting the Required items as appropriate and the Optional items as needed.

f. Save the assessment.

Additional Note: If the popup (in Step C) is inappropriate for your patient, have Office staff verify their Date of Birth in the Referral.
