This is a shortcut to only show the Start and Finish screens to certain non chargeable visit assessment types in Point of Care. When certain phrases are found in the Assessment Type description then only the Start and Finish screen will appear in the assessment. The assessment types can be modified by staff who have appropriate security.

You can also force a specific Visit Type to be used with these Assessment Types. Use Global Settings > POC > 0718 to enter the three digit visit code.
Global Setting 0719 for HH Care Plans is the only screen that will override this rule.

Home Health:
DEVIATION
CANCELLED
MISSED
TELEPHONE

Hospice:
NO CARE PROVIDED
TELEPHONE
