Payroll Compatibility with Barnestorm

Barnestorm has built-in functions for:

- [ADP](#)
- [Flex-Pay](#)

If you use another vendor, we may be able to add an export function for you, but there will be a customization fee for this service.

The process for exporting payroll to ADP is as follows:

1. Go to Reports > Employees > 02.31 ADP Payroll.
2. Enter any holidays in the payroll period.
3. Create the Payroll export. This creates a special .CSV that's for importing to ADP, and it always goes into the C:\ADP\PCPW\ADPDATA\ folder.
4. Log in to ADP.
5. Import the CSV file to ADP.
