

Visits by Employee (02.73)

Lists visits sorted by Employee # Patient with visit counts, total hours, and average hours per patient.

Overview

Location: Barnestorm Office > Reports > Visits > 02.73 Visits by Employee.

Use this report to review workload and hours per employee and patient for a selected date range.

Steps

- Open 02.73 Visits by Employee.
- Set filters:
 - o Visit Dates after – start date (YYYYMMDD).
 - o Visit Dates before – end date (YYYYMMDD).
 - o Employee(s) – one or more employee codes.
 - This pulls based on the visit.
 - o RevCode – optional 4#digit revenue code (e.g., 0550 = RN).
 - This pulls based on the employee code screen.
- Click Print the Report.

Example/Notes:

- For March–April 2016, enter 20160229 for Visit Dates after and 20160501 for Visit Dates before.
- Results are sorted by Employee, then Patient.
- RevCode filters by discipline mapped on the Employee Codes screen.
