

Barnestorm has integrated the OASIS C2 updates within existing screens in Office and POC, so the changes are seamless and require no change to processes or procedures. All clinical staff should review the new OASIS items and changed items, which are included here with screen images for your convenience. See the full article related to updates [here](#).

The Item Set Comparison between OASIS C1 and C2 can be found [here](#).

The OASIS C2 Guidance Manual can be found [here](#).
