

## COVID Phone Call Screening

When you call a patient prior to visiting to check whether they've been exposed to COVID since your last visit, you can document the phone call for pre-visit COVID screening.

### Places to document a call:

Barnestorm Office > Visits/Assessments screen > COVID button at top

Barnestorm Point of Care > Select Patient screen > COVID button in bottom left panel where patient visits show

Barnestorm Point of Care > Visits/Assessment screen > COVID button at top

### How to document a COVID phone screening:

**Phone contact with patient/caregiver prior to in-home visit**

---

☒ I spoke to the patient

Name of source providing information:

---

Are you currently experiencing signs or symptoms of a respiratory infection, such as fever, cough, body aches, chills or sore throat? ☒ Yes ☐ No

---

In the last 14 days have you (patient or caregiver) had contact with someone who is under investigation or has confirmed diagnosis of COVID-19 or ill with respiratory illness? ☐ Yes ☒ No

---

Is the patient residing in a skilled nursing, assisted living, or independent living facility where there are known cases of COVID-19? ☐ Yes ☒ No

---

**A message will be sent to the Case Manager, and this patient will be marked as Active/Suspected COVID. You can add a message to the Case Manager below:**

- Point of Care will allow you to select a starting time of the call. The ending time will be the time you click on the Save button.

## COVID Phone Call Screening

- Each question is required to save the call.
- If symptoms are present you will have a text box to type in details.
- If any of the three questions are answered Yes, a message will automatically be sent to the the case manager (first employee) and second employee listed on the Referral. The clinical supervisor can also receive a message if they are setup in the global setting (check with Barnestorm support on how to setup).
- If any of the three questions are answered Yes, the patient's referral will be marked as "COVID Risk (on the Emergency Plan tab).
- After you save the information it will show up as a non chargeable visit labeled, "COVID Phone Contac".

### How to edit time:

Employee:	BARNESTORM, ADMIN • 9875/		▼
Payer:	HUMANA ADVANTAGE • 01108		▼
Job Code:	COVID Pre-Visit Phone Call • 510		▼
Visit Type:	COVID Pre-Visit Phone Call • 510		▼
Date:	8/13/2020 		
Start:	2:08:00 PM	End:	2:10:00 PM
Comments:	Phone contact with patient/caregiver prior to in-home visit		

The time and date can be edit from **Barnestorm Office > Visits/Assessments** screen by unlocking and clicking on Edit. Also from **Barnestorm Office > Admin > Fix Assessments**. **Note:** if you unlock and lock the phone call, it will show up in que to generate a visit charge. You can delete the charge under Employee Activity > Visit Entry. Point of Care, you can edit the time by selecting the COVID call and click on Edit COVID time.

### How to edit document content:

You will need to unlock the note from Barnestorm Office and delete it so that you can create a new one.

## Additional information:

- When Barnestorm is maximized, the Select Patient screen will show Active COVID Risk patients in hot pink.
- The patient's schedule entry on the Schedule Calendar screen will highlight hot pink when the patient is marked as COVID Risk.
- If the patient is found to no longer be a COVID risk, go to **Referral > Patient Information > Emergency Plan** and uncheck the **COVID Risk** box. Once the patient status on the Referral is changed they will no longer show up in pink.

Admitted: 08/13/2020 **Active \*COVID\***

Patient Information | Referral Information | Payers | Dr + Pharmacy | Employees | Print

Start | Contacts | **Emergency Plan** | Directives | Directions | History | Notes

☒ **COVID Risk** Print Emergency Plan

Risk Classification | Special Needs | Patient Contacts | LACE Scoring Tool | Other Risk Factors

- From Visits/Assessments screen, you can hide the COVID phone screening entries by checking the Skip COVID Calls box.
