

CareChamp Users - Schedule Does Not Show Up

****TEST ARTICLE****

***Best Practice**

From the Menu drop-down in CareChamp, click the 'Reload Schedules' button.

-->This will refresh your schedules that have not been started or finished.

-->This may take several minutes to complete depending on the connection and the amount of schedules to sync.

-->If your schedule continues to not show up, contact the office to ask them to add your schedule for the day.
