06.24 Patient Counts by County/Age

- Cd = The county code assigned in the patient's referral.
- **County** = The county name/description.
- **Age Range** = The age ranges indicated.
- **HH** = The patient count for Home Health.
- **CAP/PCS** = The patient count for CAP/PCS.
- **Hospice** = The patient count for Hospice.
- Total = The total patient count for that county/age range.
- **# of HH Visits** = The total number of visits for that county/age range.

NOTE: If you see the patient count is not accurate, please use the following reports to make sure there is no missing county codes or missing/invalid date of birth in the referral.
